

MICRO-RAY ELECTRONICS, INC. · BUILDING CONNECTIONS SINCE 1984

We are a manufacturer first and a distributor second: we stock it, we modify it, or we build it. 2,281 part numbers are listed on micro-ray.com and can be searched, cross-referenced and quoted today.

Your quantities, your schedule. We build to your print and release to your line: custom cable assemblies, modified terminations and lengths, connectors built to a print, control panels and light PC board assembly.
